

Issue/solution	Actions		Catchment Workshop				Potential to contribute to CPAF Priorities?				Potential CPAF project ideas
			Y/E	A/SK	D/S/To	T	Protected Area (PA) objectives	Restore natural features & ecology	Reduce impact of man-made structures	Reduce impact of diffuse pollution	
	<i>Happening</i>	<i>Interested</i>									
WQ impact on shellfisheries – FIO, HABs		Feed into tidalwaters LAH process, EXA – EA Assume SWW involved Sophie Cocks: drive improvement through HMP - shellfish investigation - strategies to engage more with shellfisheries									
Agriculture . e.g. Maize growing runoff from Autumn Harvest - inappropriate use on Upper Teign	FWAG DWT farm advice - experience from DTRIP/WW/NIA	Deborah Deveney - Cirl Bunting Project Officer RSPB Devon Greater Horseshoe Bat projects - Ed Parr-Ferris (DWT and partners)									
Free and easy to understand advice to landholders	Defra and agrichemical companies	DTRIP - farm advice/plans/grants for fencing and small works									
Improving the quality of existing access to the water environment whilst limiting degradation and balancing the safeguarding of our high quality water environment with developing new sustainable access opportunities where appropriate.											
Outdoor education provision and opportunities – encourage appreciation of wildlife and public benefits provided by the rivers		- South Devon Outdoors and AONB - DWT - schools, reserve family open days		✓	✓						
Improve existing pathways e.g. river walks, green lanes		Val Mercer PP3 PCS	✓								
Filling strategic gaps in the recreation network inc: - Link footpaths - Access/egress points for canoeing/kayaking - Safe wild swimming areas				✓							
Open access (particularly at the coast through work on the Marine and Coastal Access Act 2009 coastal access corridor)				✓							
Business sponsorship				✓							
Education and awareness re pressures	- Wants to create opportunities for students to develop and contribute to project (Stacey D - Plym. Uni) - Possible projects? (National Trust, Emma Reece)	Val Mercer Slapton Ley FSC - Lecturing to students about these issues (Stacey D Plym Uni) - Education (Singing Paddles) SDAONB education and awareness events - estuary forums	✓	✓							
Work with key groups and businesses where over-use pressures arise				✓							
Dog licences				✓							
Regulation and enforcement activities e.g. use of water bailiff powers		Overseeing catch limits and returns (John Roberts, AFA)	✓	✓							
Use of permitted access rather than PROW in sensitive areas or to incentivise landowners to provide access. Consider using permit access to generate income and to encourage re-investment to manage or improve recreation facilities			✓		✓

	<i>Happening</i>	<i>Interested</i>	Y/E	A/SK	D/S/To	T	Protected Area (PA) objectives	Restore natural features & ecology	Reduce impact of man-made structures	Reduce impact of diffuse pollution	
Strategic use of parking charges to manage pressures			✓								
Use of parking controls to divert pressures from honeypot sites to alternatives that are able to cope with increased pressure.			✓								
Survey of Public Rights of Way – condition assessment and problem identification.	Local Access Forum do this - PROWs are on definitive map		✓								
Map existing access opportunities			✓								
Exploit the potential of cycleways to provide additional habitat corridors	Rob Torr work with CTC and Sustrans on targeted cycle ways and routes		✓								
Strategic planning and green infrastructure			✓								
Funding for bus routes to reduce reliance on personal cars		Campaigns with Better Transport	✓								
Maintenance of coastal path involving use of remote sensing / local charters, tourism business contributions / partnerships	Lorna Sherriff - NT - NT manage coast path on NT land - we link with SWCP and volunteer SWCP checkers		✓								
Sustainable access plan		N Baldock DNPA - Recreation strategy	✓								
Control of commercial bait digging in estuaries			✓								
Use of quota based fishing controls based on local evidence	Dave Curno - Flete estate do this for the Erme Erme estuary - Flete estate (A Mildway-White) - we already address most of these issues		✓								
Addressing the disturbance of water birds during the breeding season by different water users		Lorna Sherriff - NT - Yealm kayak guide	✓								
Addressing antisocial jet ski and motor boat use	Dave Curno - RYA includes motor and jet ski's		✓								
Estuary speed limits			✓								
Use of interpretation boards		- Maintain links with coast (Rob Torr) - Lorna Sherriff - National Trust - Providing info on websites and info boards	✓								
Produce better information for tourist visitors to improve understanding and increase the value of our water environment		Green tourism business scheme and 'Our Land'	✓								
Consider the use of a quota or token system to limit access during sensitive times / in sensitive locations			✓								
Consider creating restricted areas to prevent access to watercourses particularly near abstraction areas		Flete estate - Erme - permits to parish lanes N Baldock DNPA - recreation strategy			✓						
Clarification of riparian rights					✓						
Consider the use of zoning for specific activities. Different spaces and times for different activities during the year	Dartmoor NPA – honeypot management areas e.g. Spichwick, River Dart CP	Angling Trust SWRA Fisheries Association			✓
